

Practice table of 14 by solving the following questions

$14 \times 10 = 140$

$14 \times 15 = \underline{\quad}$

$14 \times 11 = \underline{\quad}$

$14 \times 14 = \underline{\quad}$

$14 \times 4 = \underline{\quad}$

$14 \times 19 = \underline{\quad}$

$14 \times 14 = \underline{\quad}$

$14 \times 5 = \underline{\quad}$

$14 \times 18 = \underline{\quad}$

$14 \times 20 = \underline{\quad}$

$14 \times 6 = \underline{\quad}$

$14 \times 11 = \underline{\quad}$

$14 \times 6 = \underline{\quad}$

$14 \times 16 = \underline{\quad}$

$14 \times 19 = \underline{\quad}$

$14 \times 5 = \underline{\quad}$
