

Practice table of 7 by solving the following questions

$7 \times 6 = 42$

$7 \times 5 = \underline{\quad}$

$7 \times 7 = \underline{\quad}$

$7 \times 18 = \underline{\quad}$

$7 \times 13 = \underline{\quad}$

$7 \times 18 = \underline{\quad}$

$7 \times 5 = \underline{\quad}$

$7 \times 1 = \underline{\quad}$

$7 \times 10 = \underline{\quad}$

$7 \times 6 = \underline{\quad}$

$7 \times 6 = \underline{\quad}$

$7 \times 5 = \underline{\quad}$

$7 \times 2 = \underline{\quad}$

$7 \times 19 = \underline{\quad}$

$7 \times 6 = \underline{\quad}$

$7 \times 20 = \underline{\quad}$
